WELCOME

Entirely renovated between 2019 and 2021, Hotel Villa Pamphili Roma stands on the park of Villa Dorja Pamphili and it is the successful synthesis between the ancient history of the place and a contemporary allure, balancing a typical Italian hospitality with international venues. The hotel is contemporary retreat in the Eternal City far from the chaos of the center, a place to relax and discover the beauties of Rome. Its elevated position guarantees a breathtaking view of the lush vegetation and of the Capital.

The interior design is by Dexter Moren Associates, a London-based studio specialized in hotel architectural and interior design project.

PHILOSOPHY

Our philosophy starts from a concept of balance and harmony between tangible elements, such as spaces, connectivity and food, with intangible elements, such as service, satisfaction and sustainability. Food is a very important component of meetings, able to improve efficiency, focus and mental speed while lowering stress levels.

Our spaces are flexible, functional and furnished in great style.

We are increasingly looking for exciting experiences, our goal is to fulfill your wishes, to create tailor-made events and therefore unique experiences, from planning to realization. We know that every event has a purpose in itself, be it celebratory, educational, or formative. Only by grasping this goal and working together to transform the idea into reality, we can be able to design an experience beyond all expectations.

EVENTS

The magnificent setting of Hotel Villa Pamphili Roma offers endless possibilities for organizing events to remember. Our emotional biophilic spaces develop from the inside out, across the wide rooms of the new Conference Center. We offer you our careful attention to every detail, our quality banqueting menus and a friendly staff for your business meetings, conferences, incentives or private events, such elegant cocktails and gala dinners.

The 15 meeting rooms of the Conference Center extend over 3 floors: Ground floor, Terrace floor and Pool floor. All the rooms bring the names of aristocratic families who have marked the history of Rome and are equipped with cutting-edge technology. The rooms can be modulated according to the needs. The walls are soundproofed and each room has natural light and independent audio and video control.

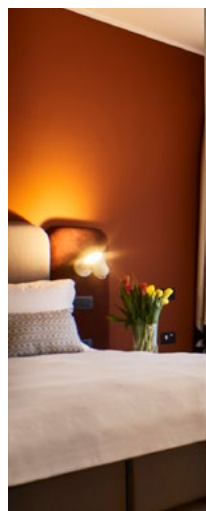

FOOD & DRINKS

Come and savor the exquisite cuisine of the restaurants of Hotel Villa Pamphili Roma. Our menus change with the changing seasons and enhance flavors that are both familiar and surprising. The art of our cuisine is inspired by local traditions. Since ancient times, the local gardens and countryside have been producing ingredients that have become, today, an Italian excellence in the world. To this we combine our experience, made up of research and experimentation. Guided by the creative flair of starred chef Andrea Ribaldone, we tempt the palate with delights you will never forget. AcquaViva is our main restaurant with à la carte cuisine and banqueting, 1 American bar, 1 pool bar adjacent to the semi-Olympic swimming pool with 500sqm solarium in the greenery. The pride of the hotel is the Pamphili Terrace, the rooftop lounge on the 5th floor, with restaurant, bar and spectacular panoramic views of the greenery and the city.

ROOMS & SUITES

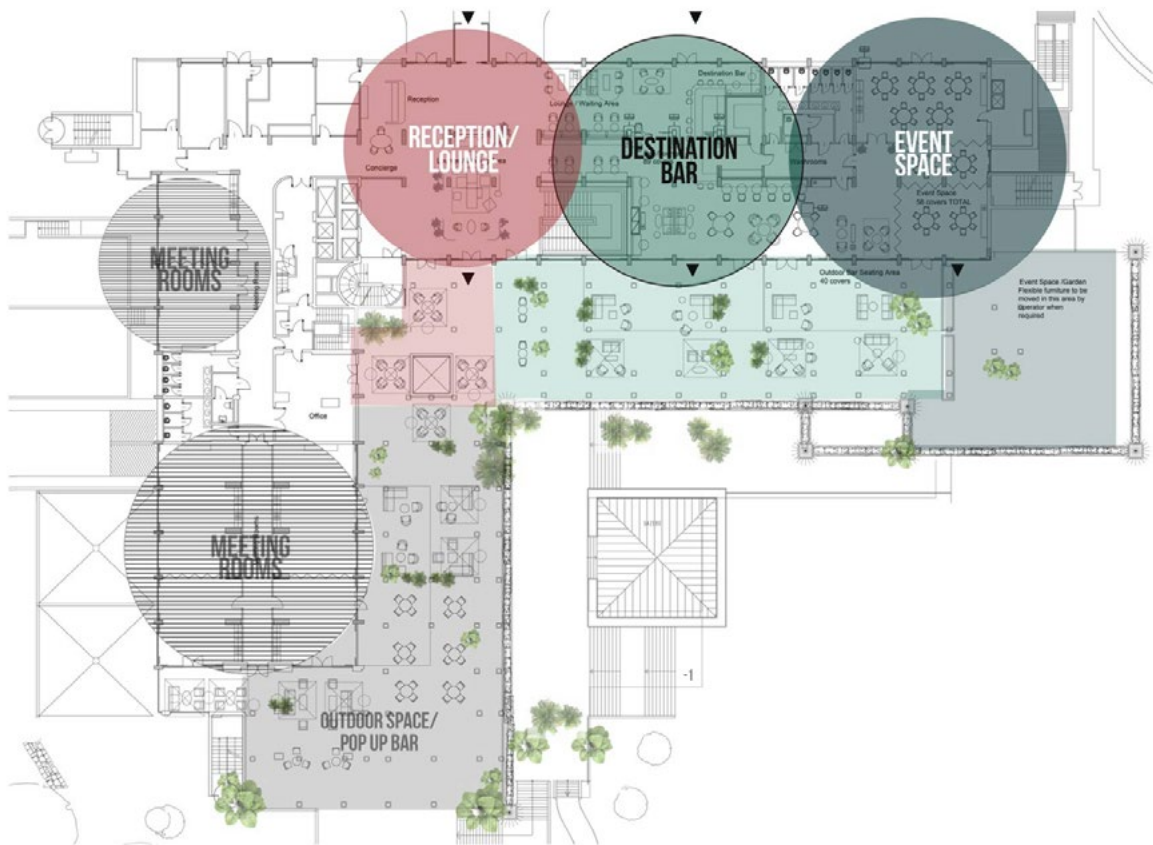

Completely renovated between 2019 and 2021, the 235 rooms of Hotel Villa Pamphili Roma are the purest expression of the hotel concept: a modern and relaxing oasis in the Eternal City. Spread over 5 floors, they are large, bright and comfortable. The interior design combines a contemporary esprit with biophilic design and art deco inspirations, in a successful overall balance. All rooms offer a splendid private balcony overlooking the lush vegetation of the Valle dei Casali, the swimming pool or the park of Villa Pamphili, enhancing the beauty of the surroundings. It is in these refined and quiet private spaces that you can experience the true "joie de vivre". A concept by the famous Italian architect Gio Ponti that comes from the perfect balance of volumes and spaces, from the search for a vibrant light, by day and by night, capable of giving serenity and well-being to whom live there.
